

Island Section & Ends

Island Section:

- Island Section widths: 2', 3', or 4'
- Island Sections can be combined for any length runs
- Shelving Run consists of Island Sections combined with 1 End Unit.
(Ex. 20' run consists of 5 - 48" Long Island Sections and 1 Island End Unit)

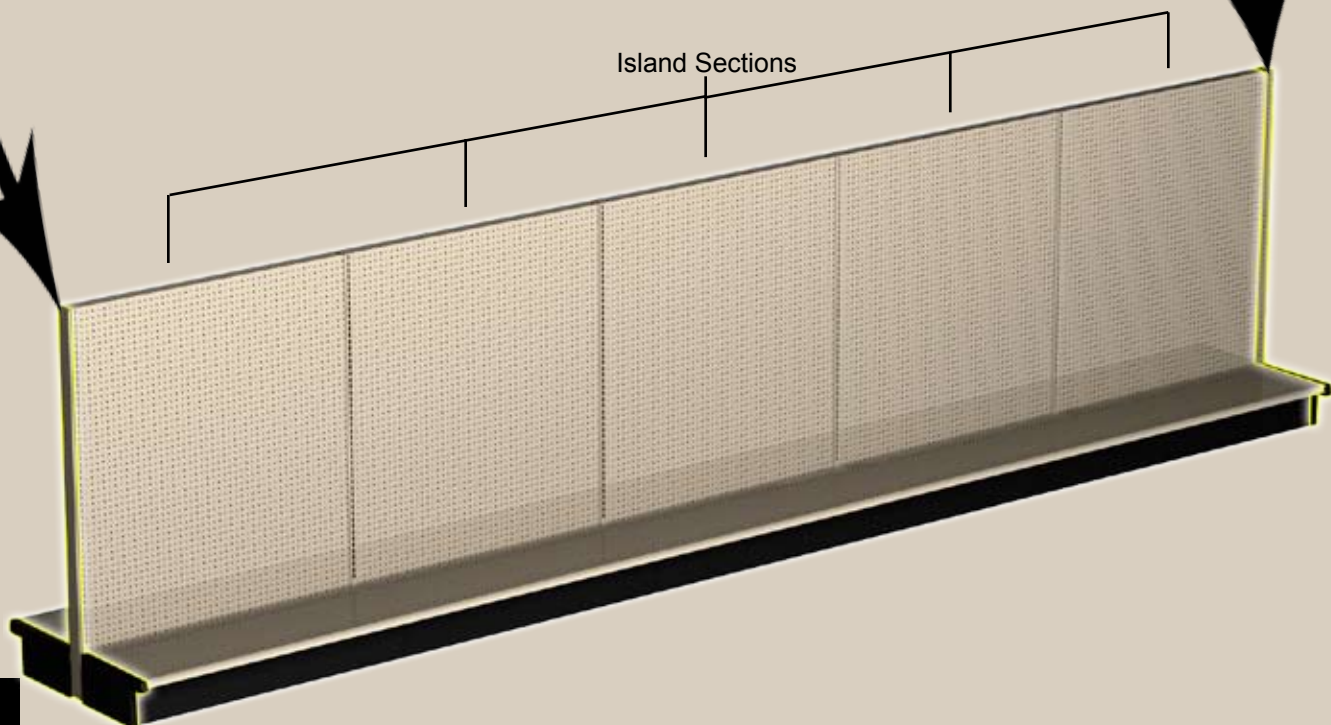

Island Section Include:

- 1 Uprite
- 2 Base Brackets
- 2 Base Decks
- 2 Closed Base Fronts
- 1 Top Rail
- 1 Center Rail (2 on 96"-120"H)
- 1 Bottom Rail
- 1 Splicer Rail (78"-120"H)
- Back Material as specified

Island End Include:

- 1 Uprite
- 2 Base Brackets
- 2 Pair Base End Trim
- 2 Uprite End Trims

Island Section Catalog Number Example

Use the Island Section catalog number scheme below to specify the desired Section sizes, Base height, colors, Back styles, Deck Molding style, etc.

	IS	4	54	19	19	(06 / LB)	S	(/ T)	CBF	CHR	PLT	PLT	P	PLT	P	PLT	S	N	PLT	S	N	PLT	
Island Section																							
Width (2', 3', 4')																							
Upright Height (36"-120")																							
Base Deck Depth Side A (13"-31")																							
Base Deck Depth Side B (13"-31")																							
06 Base (06) or Low Base (LB)																							
Spring Locking Base Bracket (S)																							
Regular Rails (blank) or Telescopic Rails (T)																							
Closed Base (CBF) or Open Base (OBF)																							
Base Color																							
Upright Color																							
Back Rail Color																							
Back Option Side A (Refer to page 106 for back types available)																							
Back Color Side A																							
Back Option Side B (Refer to page 106 for back types available)																							
Back Color Side B																							
Deck Type Side A (SD or HDSD, see page 208)																							
Deck Molding Type Side A (N none, M13S, etc; see page 219)																							
Deck Color Side A																							
Deck Type Side B (SD or HDSD, see page 208)																							
Deck Molding Type Side B (N none, M13S, etc, see page 219)																							
Deck Color Side B																							

Island End Catalog Number Example

Use the Island End catalog number scheme below to specify the desired Section height, Base Deck sizes, colors, etc.

	IE	54	19	19	(06 / LB)	S	(O,P,X)	CHR	PLT
Island End									
Upright Height (36"-120")									
Base Deck Depth Side A (13"-31")									
Base Deck Depth Side B (13"-31")									
06 Base (06) or Low Base (LB)									
Spring Locking Base Bracket (S)									
"O", "P" & "X" (see below for definitions)									
Base End Trim Color									
Upright & Upright Trim Color									

- * "O" - used when ordering Open Base (OBF) on Island Sections.
- * "P" - deletes the Upright End Trim so that a different trim package, or a standard Trim of a color other than the Upright color, can be added.
- * "X" - Extended Base End Trim required when using M55 Molding on Base Deck. This replaces the standard BET (Base End Trim) with a DC**** (Extended Base End Trim), (Pg. 121 of catalog).
