# TL-Style Extended Shelf

Part Number: **Part Number: TE**

TL-Style Extended Shelves can be used to add shelves to sections with building columns, provide space for electrical or other utility to flow behind the shelf, or for merchandising taller peg mount merchandise behind the shelf.

## Product Details:

- To add Aluminum Tag Molding replace “N” at end of Shelf part number with Molding style
- Order a Freestanding Wire Front (FSF) to install on the rear of the shelf top to provide a back stop
