# Modular Tubular Merchandiser

Part Number: **MTM**

The Mobile Tubular Merchandiser is available in numerous height, width, and depth sections with S-Style, square nose, or no deck. Available back combinations include PEG, Marteck, or Multigrid (both sides).

## Product Details:

- Tubular 1x2 construction
- Independent tube T-sections connect via integral knobscrews to allow single or multi-section run merchandising.
- Offset narrow slotting minimizes gaps between shelves on adjacent connected sections.
- Available in multiple heights and depths, multiple back styles (Peg, Marteck, Multigrid), and numerous deck options (No Deck, S-Style, Square Front)
- Accepts most Lozier shelves and accessories.
- Optional 3/4" x 1 1/4" tube end frames (Peg, Marteck, Multigrid) or wire wing panels for end of run merchandising
- Optional vertical or horizontal sign holders provide opportunity for graphic presentation
- Not compatible with TL style shelves 22D
- For multiple section runs order combination of below that include desired section widths and total to desired run length.
- Equal depth adjacent sections are required to connect to one another.
- 800 lbs evenly distributed load rating per section (400 lbs each side of each section)

Integral Knob Screw Connects Adjacent Sections

Offset slot pattern minimizes gaps between adjacent shelves  
Narrow slotting makes them less visible.
