

INSTALLATION INSTRUCTIONS

ACCESSORY PANEL CONNECTOR FOR FULL HEIGHT WING WITH END DECK

STEP 1: Install the flush merchandising panel onto the gondola.

STEP 2: Install the base angle onto the full height accessory panel by TEK screwing it with supplied hardware through pilot holes in the bottom rail two places (reference Figure 1).

STEP 3: Place the top connector onto the full height accessory panel and align with pilot holes in the full height accessory panel and flush merchandising panel. Secure with supplied hardware (reference Figure 2). Secure base angle to the end deck with supplied hardware (reference Figure 3).

MAXIMUM LOAD CAPACITY ON FULL HEIGHT ACCESSORY PANEL: 400 LBS.

MAXIMUM FULL HEIGHT ACCESSORY PANEL WIDTH: 36".

TO PROPERLY BALANCE THE FULL HEIGHT MERCHANDISING PANEL, THE LOAD ON THE FULL HEIGHT MERCHANDISING PANEL MUST BE EQUAL TO OR GREATER THAN THE LOAD ON THE FULL HEIGHT ACCESSORY PANEL.
