

# Mobile Widespan Caster Kit

## Mobile Widespan Caster Kit

- 3" H Caster, adds 3 5/8" to overall system height
- Order standard WSU\_ separately (see pg. 704 of Lozier Catalog)
- Two caster kits per Upright Frame
  - Consists of: One locking caster, one caster socket and necessary hardware
- Must include minimum of two beam levels per section
- Must order Beam Locking Clips for all beam levels (see pg. 706 of Lozier Catalog)
- Typically used as a single section. Longer or multiple sections can become difficult to move.  
For this reason it is recommended to limit applications to a maximum of three sections or 12 feet long.
- For use and application limitations, see [Installation Instruction 84777](#)
- Upright height-to-depth shall not exceed 4:1
