

Lozier Corporation – Statement on the Distribution of Safety Data Sheets (SDS)
to Customers

Lozier Corporation occasionally receives requests from customers to provide copies of Safety Data Sheets (SDS) related to our finished product. These requests include raw materials used to manufacture our products and coatings used to finish our products.

Upon review of the requirements of 29 CFR 1910.1200, Lozier Corporation has determined that all products sold are considered “articles” as defined under the standard and do not require distribution of a Safety Data Sheet (SDS) to the end user.

For any questions regarding this statement, please contact the Lozier Corporation Safety and Environmental Department at 1-800-228-9882.
